Publications Catalogue – Maps

Spring 2019

We stock maps from two publishers, [Cassini](#) and Alan Godfrey.

Alan Godfrey

These maps fall into two categories. The majority are taken from highly detailed 25" maps and are scale reduced to approximately **15" to the mile**. Almost all include notes on the history of the area by leading historians with details of principal residents and trades. The second category, which are the **one inch to the mile** scale, cover a wider area but with of course, far less detail. However, they give an overall picture of a district and include villages for which a large-scale map could not be justified.

PAST AND PRESENT MAP of TELFORD

Price **£3.00** or part of three for **£7.50**

Four maps in one – the 3 Historical Series (1833, 1902 & 1921) and the present day 1:50,000 map combined on one sheet – comparing the past with the present has never been easier!

Each map, centred on Dawley, extends from Lilleshall in the N. to Broseley in the S., and from Leighton in the W. to Shifnal in the E. covering an area of 15km x 15km.

All four maps cover exactly the same area. The three historical maps have been enlarged from their original inch-to-the-mile to match the 1:50,000 scale of the present-day map and the addition of the familiar National Grid on all four maps enables easy comparison across the four time periods. Historical notes, details of the original maps used, web-links for local history societies and other sources of information are also provided.
